Crypto Gaming Recovery Fund Expands Coalition and Announces Relief Eligibility for Players of Over 30 Web3 Titles

The Crypto Gaming Recovery Fund (CGRF), an initiative originally established by Splinterlands and the SPS DAO (\$SPS), today announced a massive expansion of its relief program. The fund has solidified its coalition of Founding Members and officially expanded eligibility to players from over 30 separate Web3 gaming projects.

Launched in August 2025 with an initial commitment exceeding \$500,000, the CGRF was created to restore faith in the GameFi ecosystem by providing relief and new opportunities for players impacted by stalled or defunct blockchain gaming projects.

A Growing Coalition of Veteran Sponsors

Building on the initial partnership with dCrops, the CGRF has formally welcomed a coalition of veteran Web3 projects as official sponsors and partners. Joining Splinterlands, the SPS DAO, and dCrops are:

These projects, known for their longevity and community dedication on the Hive blockchain and beyond, have united to offer a stable landing ground for displaced gamers.

"The expansion of our sponsor list to include Wrestling Organization Online, Crypto Shots, and Rising Star alongside dCrops demonstrates the strength of the Web3 gaming community," said Clayboyn, SPS DAO Manager. "These are builders who have weathered the storms and are now stepping up to help players from other ecosystems find a new home."

## Expanded Eligibility: Supporting Over 30 Communities

The CGRF is proud to announce that it is now accepting applications and offering relief pathways for community members associated with a vast array of projects.
