

# GFS Chemicals® Launches Veritas® Ultimate GC-Headspace Solvents

*GFS Chemicals is setting a new benchmark for accuracy and reliability with the introduction of Veritas Ultimate GC-Headspace Solvents*

COLUMBUS , OH, UNITED STATES,  
December 4, 2025 /EINPresswire.com/

-- [GFS Chemicals®](#), a trusted leader in high-purity specialty chemicals, announces the launch of its Veritas® Ultimate GC-Headspace solvent line, setting a new benchmark for accuracy and reliability in residual solvent analysis. Designed for pharmaceutical,

food, and environmental laboratories, these ultra-pure solvents deliver uncompromising performance and precise results for gas chromatography (GC) headspace testing.

“

Accuracy in residual solvent testing is non-negotiable”

*GFS Chemicals Product Manager, Rhonda Hicks*

Residual solvent analysis is critical for ensuring product safety and regulatory compliance. [Veritas Ultimate GC-Headspace](#) solvents are engineered to eliminate interference, reduce volatile impurities, and provide consistent, reproducible results.

Veritas Ultimate GC-Headspace solvents are now available

in five essential formulations:

- N,N-Dimethylacetamide (DMAc), Item #27815
- N,N-Dimethylformamide (DMF), Item #27816
- Dimethyl Sulfoxide (DMSO), Item #27817
- 1-Methyl-2-pyrrolidone (NMP), Item #27818
- Benzyl alcohol (BnOH), Item #27819

Each solution is offered in convenient 1-liter packaging for streamlined lab operations.

“Accuracy in residual solvent testing is non-negotiable,” says GFS Chemicals Product Manager,

Rhonda Hicks. "Our Veritas Ultimate GC-Headspace solvents were developed to give labs the confidence they need when analyzing products to ensure they do not contain harmful impurities."

Hicks adds, "The launch of GFS Chemicals' GC-Headspace solvent line marks the beginning of a broader solvent line expansion planned for 2025 that will include multiple formulations tailored for UHPLC and PFAS analysis."
