-- [MWC 2026 Hengtong](#) | Preview:
Innovative Practices from Cutting-edge
Optical Fiber Technologies to Intelligent
Computing Networks

As a bellwether in the global communications industry, the 2026 Mobile World Congress (MWC) will be grandly held in Barcelona from March 2nd to 5th. Hengtong will deeply participate in this industry summit, showcasing Hengtong's next-generation cutting-edge optical fibers: Air-core anti-resonant optical fibers, Ultra-low loss multi-core optical fibers, as well as a series of solutions such as FTTH/FTTR, Data centers, Industrial optical communications, In-line optical fiber monitoring, and Marine communications.

During the exhibition, multiple major new product launches and technical presentations will also be held. We sincerely invite global partners and industry colleagues to visit the Hengtong booth for exchanges and interactions.
